Program Description

Prepares Maryland law enforcement officials to meet the challenges of a diverse, global society through quality, accessible, innovative, lifelong learning. The diverse, ever-growing population of our state requires increasing numbers of law enforcement officials to be skilled at communicating, problem-solving, conflict resolution, and diversity awareness, in addition to being physically strong. The key to creating and maintaining this type of professional law enforcement official is education.

Program Learning Outcomes

- Demonstrate effective verbal and nonverbal communications with law enforcement staff and the general public. This may include effective communication skills in dealing with various types of people (e.g., hostile, angry, drunk, deranged, racist, etc.), identification of non-language and language-style factors that contribute to a negative response from the public (e.g., profanity, spitting, disrespectful attitude, etc.), and courteous, active listening.
- Apply concepts, principles and practices of the criminal justice system to affect successful resolution to potentially- and commonly-encountered policing situations. This may include identifying basic psychological responses of victims and calming and controlling a distraught person.
- Demonstrate ability to identify a given crime, crime classification and section number utilizing the Annotated Code of Maryland and/or the Digest of Criminal Laws and knowing the conditions under which certain procedures are appropriate. This may include subpoena procedures, booking procedures, and advising a person of his/her rights.
- Demonstrate effective written communications. This may include preparing complete field and interview notes, and preparing in-depth narrative reports necessary for various legal organizations and legal proceedings. Students will interpret results of wellness, fitness, and nutrition evaluations.

Program Requirements

- Students must complete their credit **English and Mathematics** within the first 24 credits.
- One course must meet the cultural competence graduation requirement (<https://frederick-public.courseleaf.com/general-education-core/#cultural>).
- **CORE: The General Education CORE** is that foundation of the higher education curriculum providing a coherent intellectual experience for all students. Students should check with an advisor or the transfer institution (ARTSYS) before selecting General Education CORE requirements. <http://artsys.usmd.edu/>

- In some General Education categories (Mathematics, Biological & Physical Sciences), a 4-credit course selected from the GenEd course list will satisfy the requirement in place of a 3-credit course. Students should check with an advisor before selecting these courses.
- For the Physical Education, Health, or Nutrition requirement, a 3-credit PHED, HLTH, or NUTR course may satisfy the requirement in place of a 1-credit course. Students should check with an advisor before selecting this course.
- Students must earn a grade of "C" or better in ENGL 101 English Composition.
