NATIONAL SECURITY AND INTELLIGENCE AREA OF CONCENTRATION WITHIN PUBLIC SAFETY A.A.S. (CAREER)

Program website (https://www.frederick.edu/programs/public-safety/national-security-and-intelligence.aspx)

Program Description

Provides a broad, adaptable education in the worlds of U.S. national security, intelligence analysis, their interactions, and their roles within the integrated public safety ecosystem. Helps students develop a solid foundation of essential knowledge for all public safety disciplines, and build upon it with specialized skills to prepare them for roles in public and private sector intelligence analytics, politics and foreign policy, and the homeland security enterprise. Offers students opportunities to study security aspects of public safety intensely, or to focus and extend their program into any of several intelligence- and security-related specialized topics.

As an AOC within the Public Safety A.A.S., coursework in this program is designed to integrate well with the Emergency Management and Fire Service Administration AOCs. Students are encouraged to talk to the Program Manager or an advisor to help choose the most advantageous program for their academic or career interests.

Program Learning Outcomes

- Demonstrate an understanding of the domains and sectors in which intelligence functions exist and operate.
- Utilize research and analysis methods to develop intelligence products that support the policymaking process.
- Communicate assessments of the security environment, as viewed through a variety of paradigms and analytical lenses, to audiences across the national security enterprise.
- Describe the main features of the modern U.S. security enterprise and intelligence community in relation to both their own history and the actions of other political actors.
- Explain the relationship between the functions of the U.S. security enterprise and intelligence community, and the functions of the U.S. public safety sector.

Program Requirements

- Students must complete their credit English and Mathematics within the first 24 credits.
- One course must meet the cultural competence graduation requirement (https://frederick-public.courseleaf.com/generaleducation-core/#cultural).
- CORE: The General Education CORE is that foundation of the higher education curriculum providing a coherent intellectual experience for all students. Students should check with an advisor or the transfer institution (ARTSYS) before selecting General Education CORE requirements. http://artsys.usmd.edu/

- In some General Education categories (Mathematics, Biological & Physical Sciences), a 4-credit course selected from the GenEd course list will satisfy the requirement in place of a 3-credit course. Students should check with an advisor before selecting these courses.
- For the Physical Education, Health, or Nutrition requirement, a 3-credit PHED, HLTH, or NUTR course may satisfy the requirement in place of a 1-credit course. Students should check with an advisor before selecting this course.
- Students must earn a grade of "C" or better in ENGL 101 English Composition.
- · Students must complete a minimum of nine credits at the 200-level.

1

Take this course within your first 24 credits

2

FS 101 is earned via articulated credit from the DFRS Recruit Fire Academy Program, the Maryland Fire & Rescue Institute (MFRI), or the National Fire Academy (NFA). Students should contact the program manager to determine eligibility.

3

CMIS 217 and CMIS 218 have multiple prerequisite options. Students interested in selecting one or both of these courses to satisfy their "Extension" requirements should speak to an advisor as soon as possible to ensure they complete the appropriate prerequisites as elective courses earlier in their program.

Transfer Note

For more information on careers and transfer, contact the Career and Academic Planning Services office at 301.846.2471 or visit Transfer Services (https://www.frederick.edu/student-resources/counseling-advising/transfer-services.aspx).

Guided Pathway to Success (GPS)

Suggested schedules map your path to degree completion.

Students should meet with an advisor each semester to carefully select and sequence courses based on their specific academic goals and interests. Visit Jefferson Hall or call 301.846.2471 for advising.

Total Credits

2

Students who have earned prior certifications from the DFRS Recruit Fire Academy Program, Maryland Fire & Rescue Institute, or National Fire Academy may be able to receive credit for that training instead of taking this course. Interested students should contact the program manager to learn more about this option.

3

CMIS 217 and CMIS 218 have multiple prerequisite options; students interested in selecting one or both of these for their Extension requirements should speak to an advisor as soon as possible to ensure they complete the appropriate prerequisites as electives earlier in their program.

Part-time Students

Part-time students should complete courses in the order listed on the pathway. Please contact program manager for questions about part-time status

Students who take fewer than 15 credits each semester or who require developmental English or Math coursework will need additional semesters to complete their degrees. Summer term and January session classes may help students to make faster progress.

Pathway Legend

Milestone - courses with the Milestone notation should be taken within the recommend credit range to stay on track for program completion.

Fall, Spring, Summer - courses with a Fall, Spring, or Summer notation indicate the course is offered in the specified semester only.
