

ADULT ESL (ADE)

ADE 641 - ESL Foundations for Healthcare Careers (90)

This course introduces ESL students to important healthcare concepts and professional career development skills to prepare students for working in a healthcare setting. Students are introduced to medical terminology in English, the current healthcare system structure and essential concepts such as HIPAA, documentation and medical records, patient rights, cultural competency, workplace professionalism, healthcare ethics and legal responsibilities, environmental safety, infection control and medical terminology. Communication skills are practiced with special focus on customer service, interpersonal communication concepts, and English language development. Students will also gain professional development skills in successful resume and application writing, interviewing, and gaining and maintaining employment.
